

Asbestos Awareness

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a new certification program, effective October 1, 2007. This course is an MTI Level 1 course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses will be offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Construction trades routinely renovate and demolish buildings that were built prior to 1981. These construction activities often result in contact with asbestos-containing materials. General Industry employers are also subject to Asbestos rules and regulations. Asbestos awareness training is required annually for employees whose work activities may contact asbestos-containing materials (ACM) or presumed asbestos-containing materials (PACM), but do not disturb ACM or PACM during their work activities. Lead is found both in industry and in construction, and poses a threat to all who come into contact with it. This combined training consists of information regarding various forms and uses of asbestos and lead. Training also includes information on the health effects associated with asbestos and/or lead exposure. Attendees will receive an asbestos awareness attendance certificate.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Asbestos: its various forms and uses.
- ▶ Health effects associated with asbestos exposure.
- ▶ Recognition and locations of asbestos containing building materials.
- ▶ Recognition of damaged, deteriorated, or delaminated asbestos containing building materials.
- ▶ Person who will carry out general responsibilities and locations of management plan, or operations of maintenance plan (O & M).
- ▶ Lead Awareness.

Facilitator

Dave Humenick joined the MIOASHA CET Division in October of 2003. Prior to coming to CET he served as an Industrial Hygienist in the MIOASHA Enforcement program for 11 years where he investigated complaints and accidents in all types of places of employment.

Before his employment with the State of Michigan, Dave was a corporate Industrial Hygienist for seven years with a prominent fortune 250 company which had over 10,000 employees throughout the US and Canada. His responsibilities included training and compliance with MIOASHA and Federal Health and Safety Standards.

Dave holds a B.S. degree in Occupational Safety and Health from Ferris State University where he majored in Industrial Hygiene with a minor in Safety.

David A. Humenick
*Industrial Hygienist,
MIOASHA, CET Division*
